

Curry County Enterprise GIS

What's New?

New:

There is a downloadable Sales file, accessed by using PDF Map Website/Tabular Data/Sales Download. Records in the file can be 'sorted' to retrieve similar kinds of information rather than inquiring about one particular record as can be done using the PDF Sales file.

Frequently Asked Questions *(Part One)*

- ▶ **What do the colored symbols in the parcels represent?**
Click on the green Legend tab to reveal symbology.
- ▶ **Why don't I get information about all the layers on the map when I use the 'Identify Visible' tool?**
Make sure you click ON the objects you want to identify, not just inside the parcel.

GIS Public Training

Brookings Campus

Southwestern Oregon Community College
October 8, 1:00 to 3:00 pm
