

STORM and SURFACE WATER MANAGEMENT

Section 4.083

- 16. An erosion prevention and sedimentation control plan, in accordance with CCZO Section 3.300 as well as a preliminary storm and surface water management plan in accordance with CCZO Section 3.400.*

The text of the Preliminary Storm and Surface Water Management plan is included with the application packet. Full 24"x 36" plans for the storm water have also been submitted to the Planning Department. Page 14 of the Master Plan shows the major drainages on the site.

The preliminary Erosion Control Plan is also included in this application packet. A more detailed plan will be prepared when construction plans are completed.
