Re: Partition(s) T38S., R.14W., Sec.31; T39S., R.14W., Sec.5 – Commercial Development.

Verizon will provide service to and within the development *in accordance with tariffs on file with the Oregon Public Utilities Commission*. Easement rights for access to the above partition must be granted to Verizon for our facilities and personnel if no public right-of-way exists along the access route. Any relocation of existing Verizon facilities due to the activity of the planned development will be considered special construction, subject to billing.

The nearest existing facilities to the development are located on Highway 101 S

If you have any further questions regarding this, please contact me at (541) 269-3375.

Sincerely,

Wyatt Rutherford
